Bob – We are only asking for revisions to the acronym list, not to the document. Let Integral know that the definition of the acronym should be consistent with the document, we were just asking that the acronyms be added.

Thanks,

Kristine Koch

Kristine,

After reviewing the list of changes to the acronym list Integral has advised me that some of the suggested changes impact the text of the document and not the acronym list (i.e. dashes vs hyphens and minus signs vs hyphens). Please confirm that you are only asking for the acronym list in the front matter of the document to be revised and are not recommending revisions to the text of the document.

Also, can you clarify that for units you are requesting that we only add units to the acronym list without defining the units in the text?

If you want the revisions applied globally throughout the RI that will require significant changes to the document and full replacement hard copies would need to be reproduced (not just switching out a few pages).

Thank you,

Bob

Bob – EPA has reviewed the final RI Report submitted by the LWG on February 8, 2016. We have confirmed required by the Agency have been made in this document. However, we note that there are several acronyms used in the document that are not included in the Acronym List. Attached is a list of acronyms we noted were missing. Please update the Acronym List and provide updated pages to EPA and provide in any future documents produced by the LWG.

Regards,

Kristine Koch

Kristine,

Based upon your email, we will suspend production and distribution of the Final RI until we hear back from you that you have confirmed that the conditions to the RI approval have been met. We want to avoid the confusion that might arise from potentially having different versions of the “Final” RI in circulation. Please let us know when you are ready for us to resume production.

Bob

Bob – We have not reviewed the final RI report to confirm that the conditions to the RI approval have been satisfied. We will send you confirmation once we have had time to review the document.

Thanks,

Kristine Koch

Subject: Final RI Approval

Kristine

I am following up on our telephone conversation on February 9 regarding submittal of the final RI. Section IX.6 of the AOC provides that EPA's approval of all deliverables will be in writing. Your letter of January 8, 2016 stated that the RI was approved subject to certain conditions being met by February 8, 2016. Please reconfirm by response to this email that the conditions to the RI approval have been satisfied.

Thank you,

Bob
